

CONSUMABLES; Price List.

The following items are held in stock, ready for use on your production, and will be used as directed by your Director of Photography. When a significant single spend is to occur you may be informed in advance, otherwise it will be assumed that these consumables maybe used and that their cost is pre-authorized. If you wish to provide your own gels or have a strict budget, please state that at the earliest opportunity, before the start of the booking. While I only carry the gels listed below, I'm happy to procure additional gels, which will be billed accordingly.

Replacement lamps are sold to production as they are used [boxed and priced individually]. The 'Practical's box', with many domestic and other lamps will be recycled onto your job. In return, you are asked to allow lamps billed on your job to remain in the box for future users. Unless specified, lamps will be retained in this way. If you have any questions about the above, please don't hesitate to call or email.
